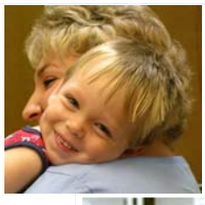
WHY HEAD START?

Because it's simply the best pre-school program available to prepare your child for the academics and social life of kindergarten... and beyond ...

Nothing else even comes close ...

Because your child will grow curious about new ideas and learn about reading, writing, math, and science.



Because your child will learn how to play enjoyably and peacefully with others, and how to focus when working alone.

Because your child will work and play in a loving environment with caring adults.

Because it's the most academic pre-school program available in the area.

There is no better way to prepare your child for success in kindergarten and beyond.

Because your child will learn good nutrition and develop good health habits.

Serving Children 3-5
